Which bride are you?

Daydreamer - For the bride that envisions a feminine, romantic look, warm colors in soft rose, peach, gold and bronze will enhance a natural beauty. The dress may be flowing organza or lace, but the look is unmistakably romantic.

Sentimental - As a "modern vintage" bride, she may desire a wedding that is reminiscent of the past, yet done in an updated way. Perhaps she has been inspired by Art Deco, Old Hollywood or retro styles that recall another era. Classic red lips, liquid eyeliner and a well-structured face help to perfect the look!

The Sophisticate - It's all about the glitz and glamour of the big day. This bride wants all eyes on her and wants to appear alluring and sexy. Her hair is perfectly coiffed and there must be an element of bling! Smoky eyes and glowing skin will turn heads as she glides down the aisle dressed to kill.

City Chic - Seeking a clean, polished look? This minimalist bride is careful in what she chooses to accentuate, opting for a cool elegance. She likes clean lines and tends to prefer sophisticated dresses. Her makeup is neutral, balanced and compliments her style without detracting from it. She is fresh, effortless and elegant.

Bohemian / Brazen Beauty – This is the bride who wants to truly stand out and make a statement. She is non-traditional and chooses a look that is current and on trend. Her dress may be avant-garde and her color palette is rich with pops of color. She seeks a look with high impact and a unique flair—something that will show off her individuality.
